Execution Disclosure

J.P. Morgan acting as depositary for depositary receipt ("DR") programs may facilitate the sale and purchase of securities in accordance with the applicable deposit agreement or the terms and condition of an unsponsored depositary receipts program. J.P. Morgan also acts as registrar and dividend disbursing agent for certain New York Registered Share ("NYRS") programs of issuers incorporated in the Netherlands. The procedures set forth below apply to any sales/purchases required under sponsored or unsponsored DR programs or a NYRS appointment to the extent such sales/purchases are contemplated in the terms of such appointment. Sales or purchases may be executed in the jurisdiction of incorporation of a DR issuer or in the market where the DRs or NYRSs are listed and/or traded. Examples include but are not limited to:

- o a sale in the local market of rights to subscribe to underlying equity shares of an Issuer, where such rights are not registered in the US (or other jurisdiction if registration is required);
- o a sale of shares issued as a result of the acquisition of a DR issuer;
- o a sale of corporate action-related entitlements that are not distributed to DR holders;
- o the purchase of local shares with a foreign currency cash remittance that cannot be converted to US dollars; and
- o a sale of securities underlying DRs that remain outstanding subsequent to the

termination of a DR program. Any exceptions to these procedures will be made in

accordance with J.P. Morgan's policies.

Execution of sale or purchase of securities

If J.P. Morgan is required to endeavor to sell or purchase securities for the benefit of DR or NYRS holders, it may instruct the J.P. Morgan Equity Trading Desk ("JPM trading desk") acting as principal or agent to execute the transaction. JPM trading desk may charge a commission of up to 5 basis points (unless otherwise disclosed) calculated on the execution price (subject to rounding). If the JPM trading desk does not have the capability to buy or sell securities in the relevant market or is unable to perform the trade for any reason, J.P. Morgan may instruct its appointed local market custodian or a local broker to execute the sale or purchase, as the case may be. Any such local market custodian or local broker may charge a commission in relation to the execution of any such sale or purchase transaction. Sales or purchases executed through agents other than a JPM trading desk or J.P. Morgan's local market custodian will only be made in accordance with the policies of J.P. Morgan.

Execution Period

J.P. Morgan will endeavor to execute the full sale/purchase during the applicable trading period and in the applicable markets of the security to the best of its ability. Sale transactions will only commence subsequent to confirmation by J.P. Morgan of receipt of the security to be sold.

Absent a specific trading period, J.P. Morgan will instruct the JPM trading desk, the local custodian or the local broker, as the case may be, to execute a sale or purchase as soon as reasonably practicable as market conditions will permit, endeavoring to complete such sale or purchase within five (5) business days. The execution price for the securities bought or sold will depend on market conditions, including but not limited to:

- a. volume of securities subject to the trade;
- b. influence of the trade on market value of securities;
- c. historic trading volumes of the securities; and
- d. number of counterparties interested in the trade.

J.P. Morgan does not guarantee that the securities will be purchased or sold or at any particular price.

Final Price

J.P. Morgan will base the final price ("Final Price") on the actual execution price for the sale or purchase as adjusted for costs and commissions as described below.

The Final Price for executions of trades over a trading period of more than one day will be determined based on the weighted average of the final prices of all the sales/purchases of securities carried out on behalf of J.P. Morgan and on its instructions that occurred over each day of the trading period taking into account the highest and lowest price traded on all days of the trading period during normal trading hours of the exchange or market where the security trades. Any conversion of foreign currency into US dollars that may be required will be undertaken in accordance with the foreign exchange policies of J.P. Morgan in place at that time. Please consult the additional disclosure for more information: [Depositary Receipts FX Disclosure]

The Final Price will be determined net of certain incurred costs or commissions, including but not limited to: (i) commission paid to a JPM trading desk, local custodian, local broker or other agent; (ii) stock exchange fees; (iii) applicable taxes and governmental charges; and (iv) any sale coordination fee of J.P. Morgan of up to 20 basis points calculated on the execution price (subject to rounding), with such fee to be assessed only in accordance with the terms and conditions of the applicable program and to the extent it would not cause the Final Price to fall outside of the range of prices for the security on that day during normal trading hours of the exchange or market where the security trades.
